

Delowe Village Relocation Update

October 6, 2026

As of October 6, 2026 All residents have been relocated off of the Delowe Village Site. The attached narrative is intended to provide a global update on the activities that occurred as part of this relocation.

Communication:

Housing Counselors from Housing to Home met with every tenant for Delowe Village and offered them temporary relocation or permanent relocation options. A full-time relocation specialist worked at the Delowe Village 40 hours a week and was available upon request to any resident seeking information. Full-time relocation counselors were stationed at Delowe Village for over 9 months and available to answer questions and provide information.

Two meetings were hosted in on June 11th and on June 18th at Sheltering Arms providing Delowe Village Tenants to hear directly from Laurel Street, ANDP, Housing To Home, LSA Management and HJ Russell about the new plans for the Delowe Village, the timing of the relocation and development process and the relocation opportunities being provided. These meetings were well advertised and well attended by several tenants from the community.

Temporary Relocation:

Nineteen Residents Choose a Temporary Relocation Option. Housing to Home worked with three East Point Apartment communities including Staton Crest Apartments, The Reserve at Maple Ridge and Renaissance Garden Walk to provide apartments during the 14-month relocation period. All moving costs were provided, and resident rent obligations were held stable to those that were being paid at the Delowe Village.

Tenants choosing temporary relocation have the first opportunity to return to the New Delowe Village and the first opportunity to qualify for one of the project-based housing vouchers being offered at the new Delowe Village. All moving costs back into the new Delowe Village will be paid for.

Permanent Relocation:

Nine Residents accepted permanent relocation payment. Under this option they were paid the difference of their rent at Delowe and their identified new housing location for 42 months up to the maximum relocation benefit. Moving costs were also covered or reimbursed.
